Product Specifications

Power Supply	
Manufacturer: Dongguan Yiheng Electronics Co., Ltd	
Model: A64A00290200	Average Active Efficiency: >88%
Rated Input: 100-240VAC, 50-60Hz, 2.0A	Efficiency at Low Load (10%): ≥88.21%
Rated Output: 29VDC, 2A, 58W	No-load Power Consumption: ≤ 0.21W

The technical information of standby mode:

Mode	Power consumption (Watts)	The period (Minutes)
Standby	0.21W	1 Min

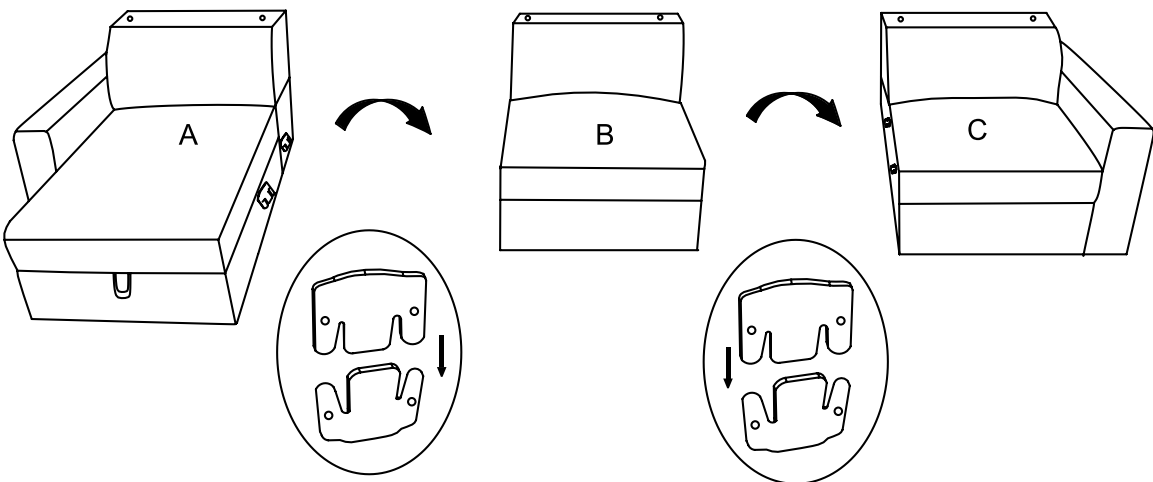

Components List

 A ×1	 B ×1	 C ×1
 D ×3	 E ×1	 F ×3

Assembly Instructions

1

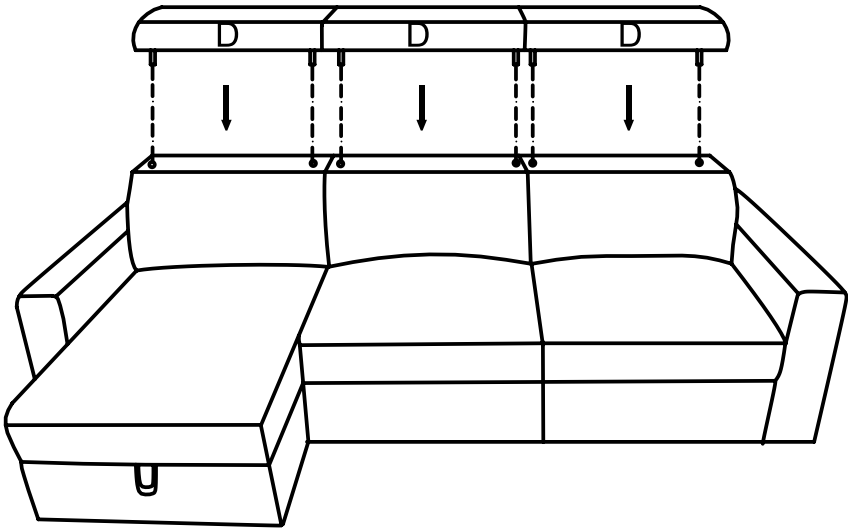

First, remove the seats and place them in positions. Then, align the two metal plates on the seat with the adjacent seat and insert them downwards, connecting them one by one to the right.

! Note: This installation applies to all configurations.

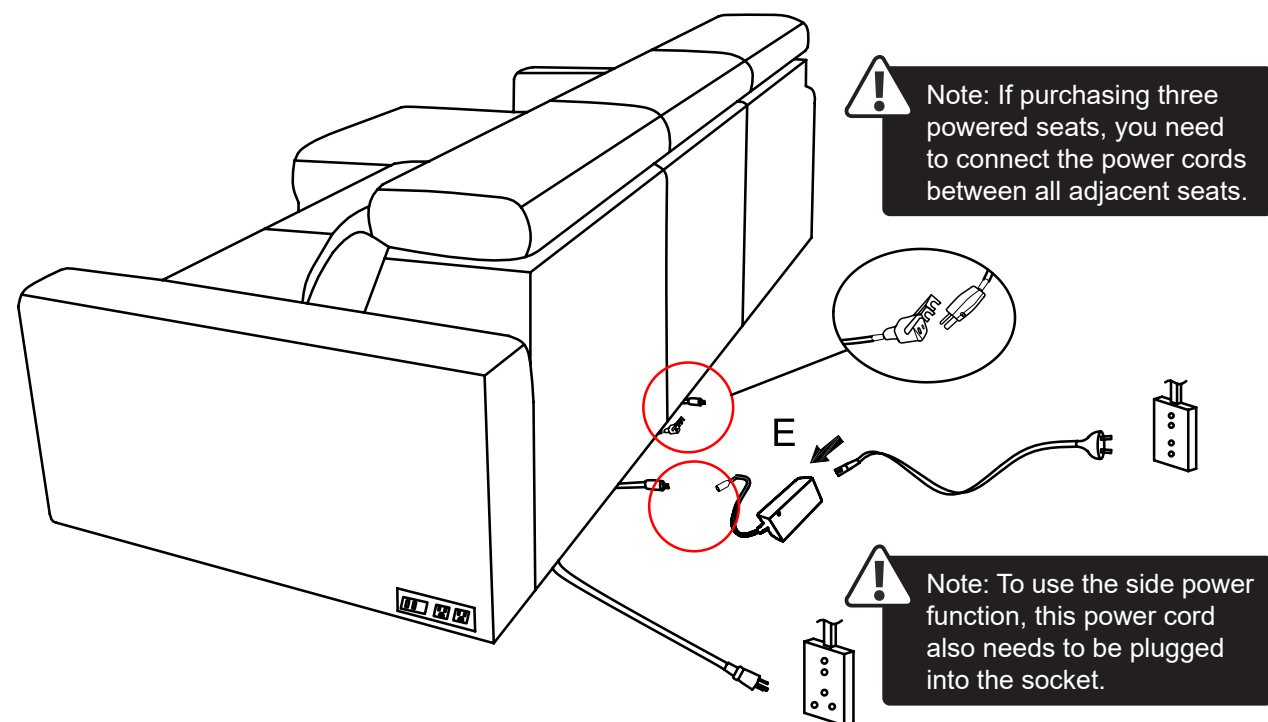

2

Remove the headrest components D and align the raised metal part of the headrest with the holes in the seat, then insert it vertically.

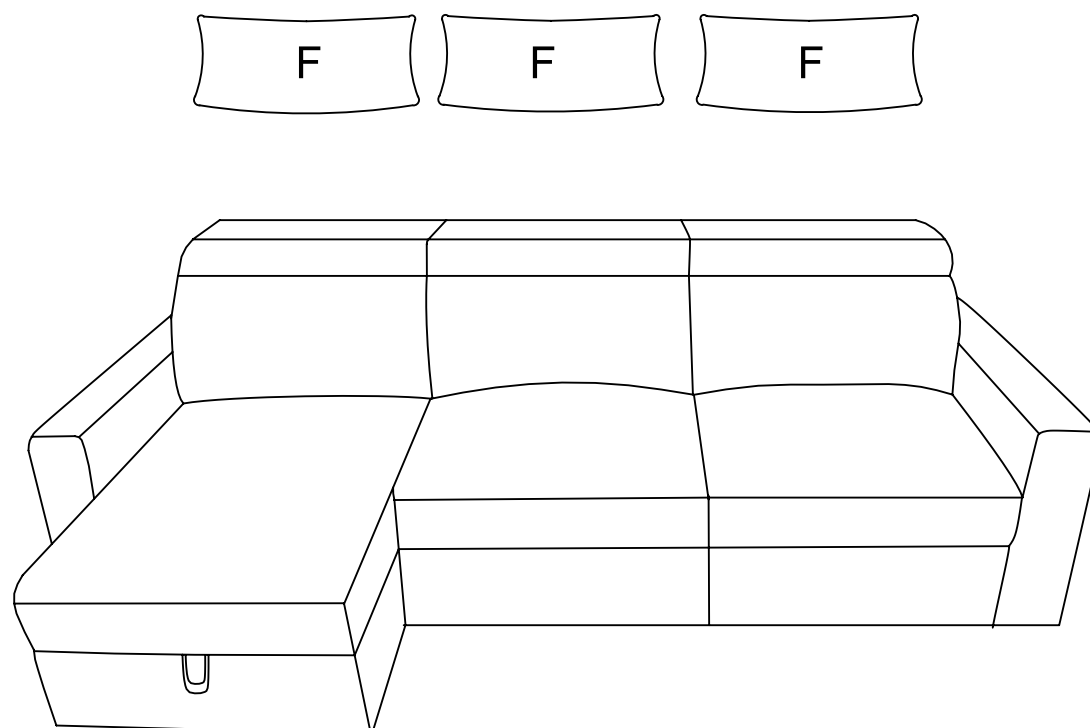

3

First, connect the power cord between the two adjacent seats. Then, take out power cord E and complete the wiring as shown in the diagram. Finally, plug the power cord into the socket.

4

Place Pillow F on the seat, installation complete.

Operating Instructions

The control button is located on the inner side of each individual sofa.
Press ← to start extending the sofa, press any button to stop.
Press → to start retracting the sofa, press any button to stop.
(One-button start/stop, no need to press and hold.)
