EXPLODED

- If you are installing the adjustable half bed, there is no need to install parts labeled "G" and "H" (highlighted in darker color).
- For instructions on installing the adjustable half bed, please refer to the corresponding installation manual.

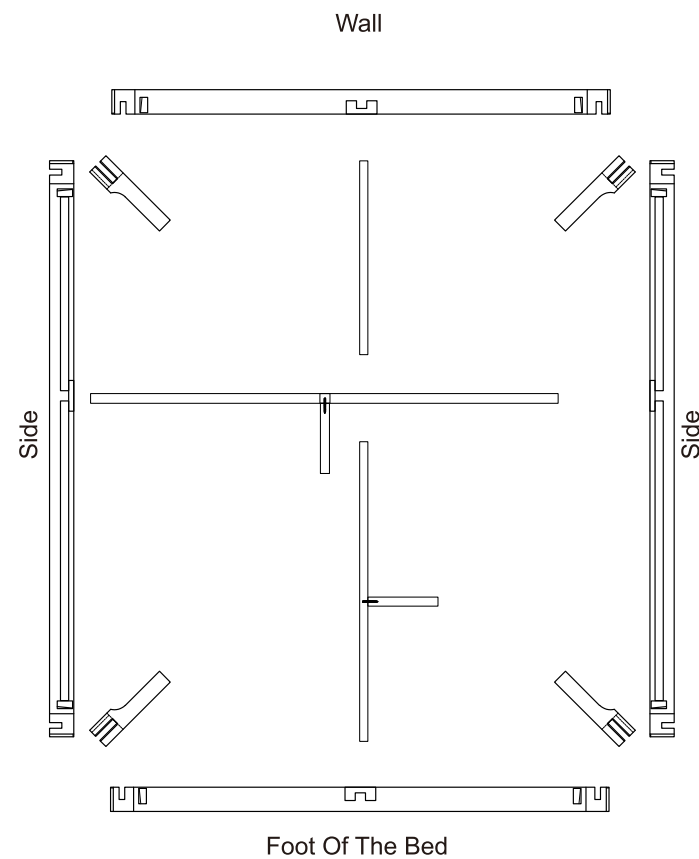

- If you purchased the Bed Frame + Headboard model: directly use the matching legs and feet of the headboard for installation.
- For instructions on installing Bed Frame + Headboard, please refer to the corresponding installation manual in "Headboard" Box.

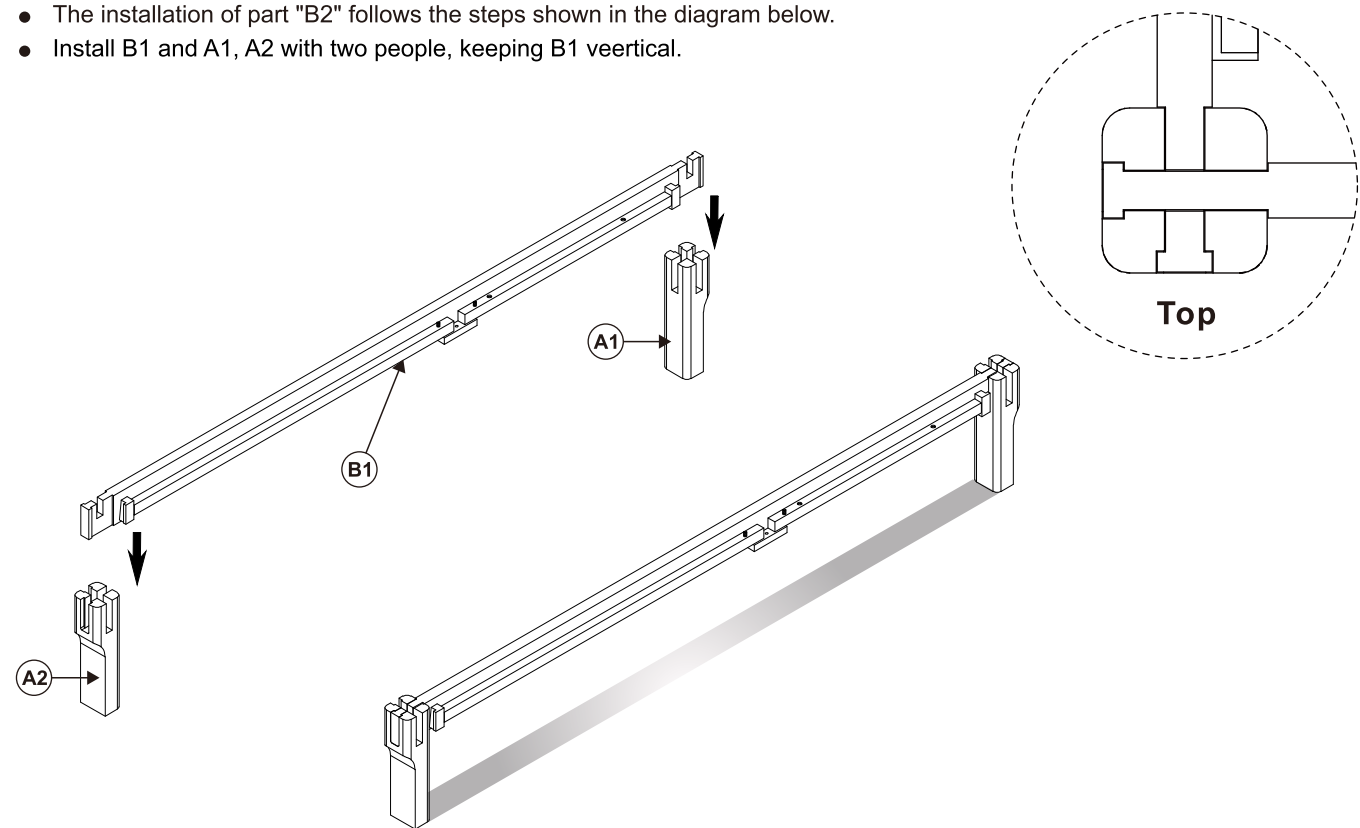

Step 1

- Place the bed frame components where you plan to position the bed.
- Lay the bed frame parts on a paper mat or carpet during assembly to prevent damage to the frame's finish from hard flooring.

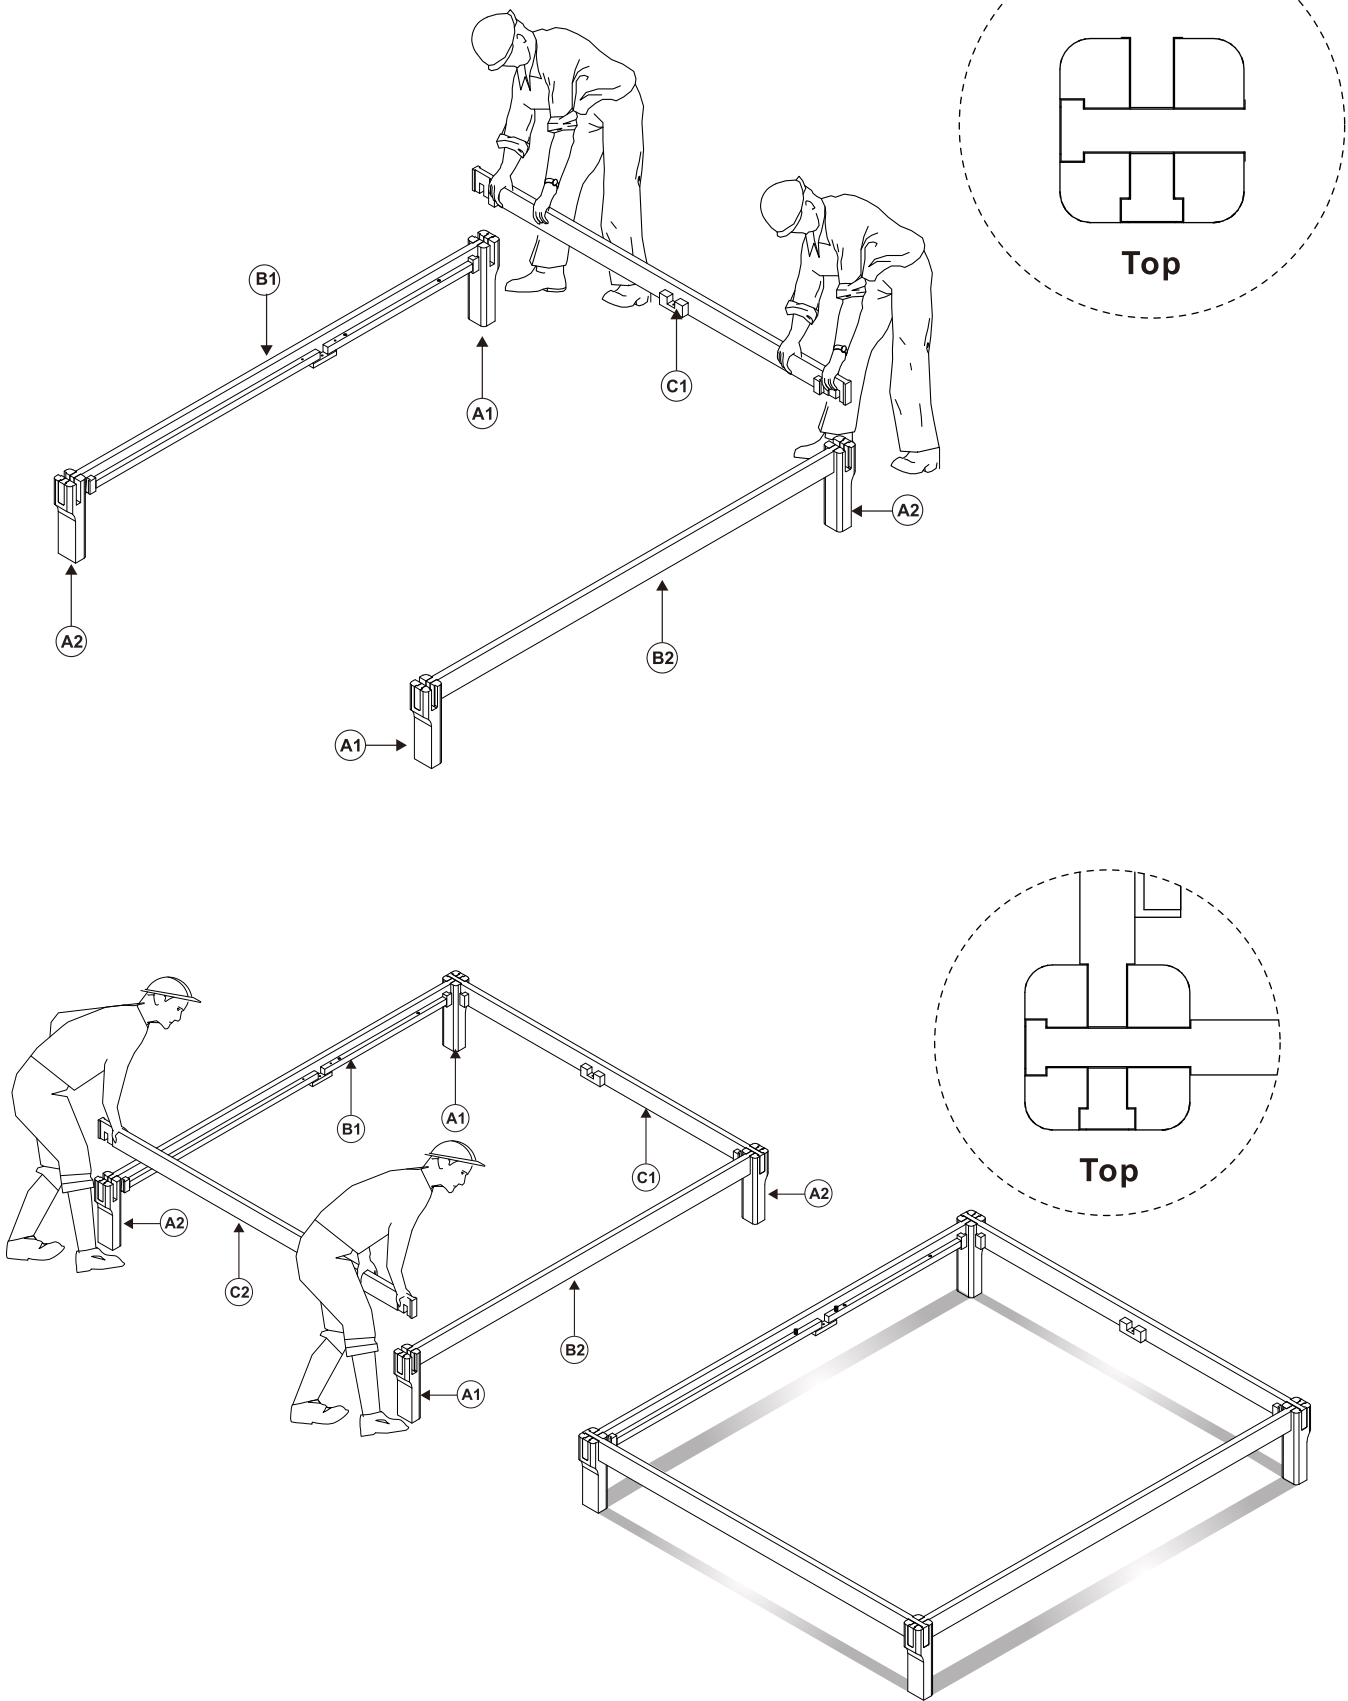

Step 2

- The installation of part "B2" follows the steps shown in the diagram below.
- Install B1 and A1, A2 with two people, keeping B1 vertical.

Step 3

- Before proceeding, secure all parts and install C1/A1/A2 with two people, keeping C1 vertical.
- Install C2/A1/A2 with two people, keeping C2 vertical.

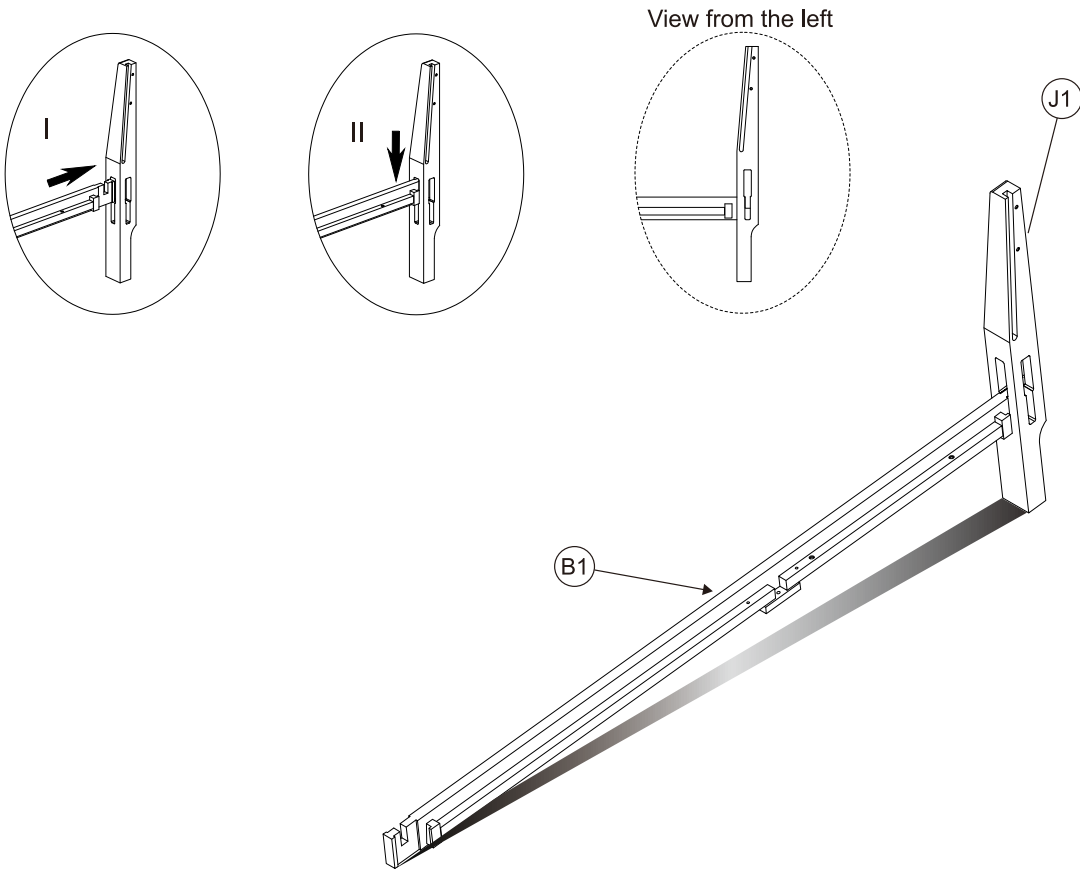

Step 3.5 (Practical Bed Frame+ Headboard Style)

- If you purchased the Bed Frame + Headboard model: directly use the matching legs and feet of the headboard for installation
- Please refet to the relevant instruction in Headboard Box.
